JOB 2 : Electricity bill calculator

OBJECTIVES : Calculate electricity consumption based on units used

: Generate corresponding electricity bill

Question : Write a PHP program to calculate electricity bill using if...else conditions.

Conditions:

- For first 50 units are billed at 50Ks/unit
- For next 50 units (51 to 100) are billed at 100Ks/unit
- For next 100 units (101 to 200) are billed at 150Ks/unit
- For any units above 200 are billed at 300Ks/unit

Electricity Bill Calculator

Enter Number of Units Consumed:

Electricity Bill Calculator
